Brevard County Libraries
Summer Reading Program 2022!

In this week's Craft Packet, our theme is **Uncharted**! Escape from a deserted Island! Create a boat using the provided materials in your bag.

Craft Packets contain a list of supplies and instructions. These packets can be picked-up at any branch within Brevard County during the week of the related theme and are available for curbside service.

Storytime, STEAM, Craft, and Teen Packets developed by the Youth Services Department

Build a Boat

Supplies

- Colored Paper or Cardstock
- Corks
- Rubber Bands
- Skewer
- Foam Shapes
- Glue or Hot Glue
- A Tub or Bucket of Water

Directions:

1. Using the materials provided, design a cork boat! You can rubber band the corks together, or use glue or glue gun (get help from a parent!)
2. Use the skewer to make a sail, and decorate with markers or sequins.
3. Design your pirate and add them to your boat.
4. Place your boat in your tub/bucket/pool of water and see if you could escape a deserted island by sailing across the sea without sinking!

What makes the boat float?

- Density is what decides whether an object sinks or floats in water. If something is less dense than water, it floats. If something is more dense than water, it sinks.
- Buoyancy is how something can float in water or air. It describes the ability or tendency to float.
