

Brevard County
Save Our Indian River Lagoon Project Plan
Citizen Oversight Committee

November 19, 2021 – 8:30 to 11:30 am
Brevard County Government Center
2725 Judge Fran Jamieson Way
Building C, 3rd Floor, Florida Room
Viera, Florida 32940

- I. Call to Order
- II. Roll Call
- III. Approval of the Agenda
- IV. Approval of Minutes
- V. Progress and Fiscal Reports
 - a. Monthly Progress Report – Virginia Barker, Director
 - b. Monthly Revenue Graph – Crystal Melton, Fiscal Analyst
 - c. Quarterly Financial Statement– Crystal Melton, Fiscal Analyst
 - d. Quarterly Save Our Indian River Lagoon Project Performance Table Update – Terri Breeden, Associate Environmental Specialist
- VI. Other Reports and Special Presentations
 - a. Project Video – Cocoa Beach Convair Cove Low Impact Development
 - b. Latest Revenue Projection Update - Virginia Barker
 - c. Project Funding and Substitution Options –Virginia Barker and Terri Breeden
 - d. 2022 Project Funding Requests - Terri Breeden
- VII. Old Business
- VIII. New Business
 - a. Project Funding Recommendations for the 2022 Plan Update
 - b. 2022 Meeting Calendar
- IX. General Public Comments
- X. Final Comments by Chair and Committee Members
- XI. Adjournment

**Save Our Indian River Lagoon
Citizen Oversight Committee Meeting Minutes**

October 15, 2021 – 8:30 a.m.
2725 Judge Fran Jamieson Way,
County Commission Chambers and On-Line via Zoom Conference
Viera, FL 32940

Members Present:

Expertise	Member	Present	Alternate	Present
Science	Lorraine Koss	Yes	Charles Venuto	Yes
Technology	Vinnie Taranto - Chair	Yes	David Sherrer	Yes
Education	Stephany Eley – Vice Chair	Yes	Kimberly Newton	Yes
Finance	Courtney Barker	Yes	Todd Swingle	Yes
Tourism	David Lane	Yes	Laurilee Thompson	Yes
Real Estate	Susan Hodgers	Yes	Dennis Basile	No
Lagoon Advocacy	John Windsor	Yes	Terry Casto	No

Staff Present:

Virginia Barker, Brevard County Natural Resources Management Director
Alex Esseeesse, Assistant County Attorney
Brandon Smith, Environmental Specialist
Matt Badolato, Associate Environmental Specialist
Terri Breeden, Associate Environmental Specialist
Jenny Hansen, Associate Environmental Specialist
Courtney Maier, Engineer I
Walker Dawson, Engineer III
Anthony Gubler, Environmental Specialist
Crystal Melton, Department Finance Manager

I. Call to Order

II. Roll Call

III. Approval of the Agenda

Lorraine Koss moved to approve the Agenda as written; seconded by Stephany Eley. The motion was unanimously approved.

Stephany Eley moved that the Committee accept the votes on issues considered at the meeting of any members not in the room, attending via zoom; seconded by John Windsor. Motion was unanimously approved.

IV. Approval of Minutes (August and September)

John Windsor moved to approve the meeting minutes of the August 2021 and September 2021 as written; seconded by Stephany Eley. Discussion ensued.

Save Our Indian River Lagoon Citizen Oversight Committee Meeting
MINUTES – October 15, 2021

It was noted that Laurilee Thompson was erroneously listed as present on the September meeting minutes.

John Windsor moved to approve the meeting minutes of the August 2021 as written; seconded by Stephany Eley. Motion was unanimously approved.

John Windsor moved to approve the meeting minutes of September 2021 with edits to reflect that Laurilee Thompson was not present; seconded by Stephany Eley. Motion was unanimously approved.

V. Progress and Fiscal Reports

a. Monthly Progress Report – Virginia Barker, Director

The Monthly Progress Report was given by Virginia Barker.

Discussion ensued. The Committee's questions were answered by Virginia Barker and Walker Dawson.

b. Monthly Revenue Graph – Crystal Melton, Department Finance Manager

Crystal Melton reported on the Monthly Revenue Graph.

VI. Other Reports and Special Presentations

a. Junior Achievement Lagoon STEM Pilot Program – Anne Conroy-Baiter, President, Junior Achievement of the Space Coast

Ms. Conroy-Baiter gave a power point presentation entitled: Junior Achievement Lagoon STEM Pilot Program Topics included: 1) Background information on Junior Achievement of the Space Coast; 2) Peak Performance Award; 3) Program for Financial Literacy; 3) 2021 Balda Family Foundation Innovation Challenge; 4) Workforce Development – STEM Program; and, 5) Junior Achievement Business Hall of Fame.

Discussion ensued. The Committee's questions were answered by Ms. Conroy-Baiter.

b. Cocoa Beach Golf Muck Dredging/Capping Study – Jim Langenbach, Senior Principal, Geosyntec Consultants

Mr. Langenbach gave a power point presentation entitled: Cocoa Beach Golf Muck Dredging/Capping Study. Topics included: 1) Overview of Cocoa Beach Golf Muck Dredging/Capping Project area/background; 2) Summary of Field investigation Findings; 3) Summary of Alternatives Evaluated to Address Muck; and 4) Path Forward.

Discussion ensued. The Committee's questions were answered by Mr. Langenbach and Wayne Carragino, City of Cocoa Beach, and Virginia Barker.

c. Geochemical Nutrient Cycling in the IRL: Historical Perspectives, Ocean Inflow and the Future – Dr. Austin Fox, Assistant Professor, Florida Institute of Technology

Dr. Fox gave a power point presentation entitled: Geochemical Nutrient Cycling in the IRL: Historical Perspectives, Ocean Inflow and the Future. Topics included: 1) Opening and closing of inlets (flood shoals); 2) Wetlands converted to uplands and mosquito impoundments; 3) Increased freshwater inputs; 4) Few sub-basins; 5) Fundamental changes to circulation; 6) Technology (Capping and Dredging); 7) Inlet versus ocean inflow; 8) Lab and Field Sampling; and 9) What we have learned.

Discussion ensued. The Committee's questions were answered by Dr. Fox.

d. Tracking Changes, Improving Outcomes and Measuring Success: A Story of Oxygen in the Lagoon – Dr. Austin Fox, Assistant Professor, Florida Institute of Technology

Dr. Fox gave a power point presentation entitled: Tracking Changes, Improving Outcomes and Measuring Success: A Story of Oxygen in the Lagoon. Topics included: 1) Data from networks of sensors in the Lagoon; 2) Existing networks; 3) Data from Cocoa Beach Dredging Project; 4) Oyster Restoration, Seagrasses, etc.; 5) Understanding the natural system to promote successful restoration and education; and 6) Education Outreach opportunities.

John Windsor moved to extend the meeting for 15 minutes; seconded by Lorraine Koss. Motion was unanimously approved.

Discussion ensued. The Committee's questions were answered by Dr. Fox.

John Windsor moved to extend the meeting for 5 minutes; seconded by Lorraine Koss. Motion was unanimously approved.

VII. Old Business

VIII. New Business

IX. General Public Comments

Public Comments were heard.

X. Final Comments by Chair and Committee Members

Final Comments were heard.

XI. Adjournment

Save Our Indian River Lagoon Project Plan November 2021 Progress Report

WORK COMPLETED THIS MONTH:

- 9 Sewer Quick Connect reimbursements processed for a total of 34 completed to date
- 4 Septic Upgrades reimbursements processed for a total of 46 completed to date
- Satellite Beach Jackson Court Stormwater Treatment Facility project completed
- Basin 2258 – Easements Acquired
- Brevard Zoo constructed 3,756 square feet of oyster bars in the North Indian River Lagoon
- Living Shoreline Performance - University of Central Florida monitored the Wexford and Maritime Hammock E.E.L.s oyster bars; oysters have grown at Wexford and there was a 16.9% increase in oysters counted at Maritime Hammock since monitoring in April.
- Derelict Vessels – 4 removed
- Amendments – time extension amendments executed for Titusville Osprey Water Reclamation Facility Upgrade and Palm Bay North Area Water Reclamation Facility Upgrade
- Video Complete – Convair Cove Low Impact Development

WORK UNDERWAY THIS MONTH:

- Brevard County Smoke Testing – Contractor on standby; software consultant adding code enforcement software
- South Central C Septic-to-Sewer –Contract executed
- Micco Septic-to-Sewer –Bid package due to procurement on 11/18
- Sykes Creek T Septic-to-Sewer – Environmental Site Assessment for approved property acquisition
- Sykes Creek M Septic-to-Sewer – surveying parcel for acquisition
- Sykes Creek N Septic-to-Sewer – 75% design in review by Utility Services Department
- South Beaches P Septic-to-Sewer –Preliminary design to be complete in approximately 90 days
- Sunset Road/Serenity Park/Basin 26 and Johns Rd/Basin 62 – Construction delays for acquiring material
- Angel Avenue/Basin 1066 – design work underway
- Kingsmill Phase II – New consultant chosen, Task Order circulating for signatures
- Basin 998 – Design task order negotiations underway
- Grand Canal Muck Dredging – Approximately 148,000 cubic yards of muck dredged through October
- Sykes Creek Phase I Muck Dredging – Selection committee met and recommended contract award
- Eau Gallie Northeast Muck Dredging – Awaiting permit modification for dredge pipeline to cross the Intercoastal Waterway; bid documents under review
- Shellfish Aquaculture Grant Program - Three applications processed – 3 million clam seed to be planted
- Contracts -Cocoa Beach McNabb Oysters and Plants out for signatures
- Amendments – time extension to a St. Johns River Water Management District cost share grant for Oak Point Package Plant Connection to Sewer is circulating for signatures
- Videos Underway - Grand Canal Muck Dredging and Interstitial Water Treatment filming contracted
- Grants – State Innovative Technology full submittals submitted October 15th
- Kick-off meeting scheduled for the grant-funded Remote Algae Bloom Sensing study
- Close Out old Fiscal Year and set up Purchase Orders for new Fiscal Year

PRESENTATIONS THIS MONTH:

November 3 - American Public Works Association – Anthony
November 4 – Good Morning Space Coast Breakfast, Melbourne Chamber of Commerce - Virginia
November 13 – Sherwood Stormwater Park 50th Project Ribbon Cutting - Virginia
November 13 – Indian River Lagoon Day - Brandon

UPCOMING LAGOON SCIENCE FORUMS AND PUBLIC EVENTS:

December 7 – Marine Resources Lunch & Learn on North Atlantic Right Whale Update
December 7 – Ocean Research & Conservation Association – [Intro to One Health Fish Monitoring & Processing](#)
December 16 – Ocean Research & Conservation Association – [Laboratory Techniques II \(Particle Analysis\)](#)
February 17 & 18 – Indian River Lagoon Symposium

UPCOMING VOLUNTEER PARTICIPATION OPPORTUNITIES:

November 20 – [Brevard Zoo Restore Our Shores Supply Making](#)
November 23, December 7 and December 16 – Ocean Research & Conservation Association Fish Processing & Extractions - [Email Hannah Atsma for information](#)
December 11 – [Brevard Zoo Restore Our Shores Supply Making](#)
Brevard Zoo Restore Our Shores [Clam Restoration Project seeking volunteers](#)
Rotary Park rain garden maintenance – [Email Carlos Cuevas for opportunities](#)
Storm drain marking in Cocoa – [Email Carlos Cuevas for opportunities](#)
Storm drain marking in Melbourne – [Email Nicole Broquet for opportunities](#)

WEBSITE AND SOCIAL MEDIA LINKS:

[Lagoon Loyal Outreach and Engagement Landing Page](#)
[Save Our Indian River Lagoon Website](#)
[Save Our Indian River Lagoon Facebook](#)
[Save Our Indian River Lagoon Instagram](#)
[Save Our Indian River Lagoon YouTube](#)

FUTURE TOPICS FOR SPECIAL PRESENTATIONS:

1. Pollution and Algal Bloom Mapping via Satellite Imagery Interpretation
2. Low Impact Development/Resilience – Local examples, efforts and potential opportunities
3. Surface Water Remediation – Phosphorus Free, S.W.I.G., D.T.G., Chemical Tech, HABITATS
4. Lagoon projects managed and funded by other agencies, entities or grant programs
5. Indian River Lagoon Research News: TechCon, Shore, and Harbor Branch Symposium Highlights
6. Water Technology Conference/Industry Day – Economic Development and National Estuary Program
7. Completed and Ongoing Lagoon Research – Florida Tech Research Initiative
8. Lagoon Fish and Fisheries Research – Dr. Grant Gilmore
9. Nutrient Loading Impacts of Reclaimed Water
10. Project Performance Measurement Results
11. Microplastics in the Lagoon
12. Herbicide Alternatives

Save Our Indian River Lagoon Funding Application Short Form: **Maritime Hammock Preserve Stormwater Pond Aquatic Vegetation Harvesting**

Project Details

Entity: City of Cocoa Beach

Project Type: Vegetation Harvesting

Sub Lagoon: Banana River Lagoon

Location: 1235 N Atlantic ave, Cocoa Beach, FL

Project Description: This project will remove aquatic vegetation from a 1-acre stormwater pond in the Maritime Hammock Preserve. This stormwater pond treats runoff from 154.8 acres of the surrounding area. Aquatic vegetation present in the pond includes cattails, pondweed, and hydrilla.

Education and Outreach: The Maritime Hammock Preserve is open to the public and consists of a nature trail and a gazebo that overlooks the stormwater pond. 4 educational signs will be installed in the park over the next year. One of these signs will include information about the stormwater treatment pond and nutrient removal.

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 14 lbs/year X 5 years = 70 lbs

Total Phosphorus Reduction (lbs/year): 1 lbs/year X 5 years = 5 lbs

Costs

Total Project Cost: \$8,484

Estimated Cost per Pound Total Nitrogen Removed: \$121

Estimated Cost per Pound Total Phosphorus Removed: \$1,414

Eligible Tax Funding Cost Share: \$7,700

Project Funding

Is Local Match in Adopted Budget: False

Dollar Amount of Local Cost Share: NULL

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: Increased stormwater storage/treatment capacity in the pond. Increased groundwater infiltration. Reduces herbicide use, improves drainage, reduces mosquito breeding habitat, prevents muck accumulation and associated biological oxygen demand

Notes: 6,010 pounds of wet weight plant material removed from 1-acre stormwater pond over 5 years

Save Our Indian River Lagoon Funding Application Short Form: **Basin**
1398 Sand Dollar Canal Harvesting

Project Details

Entity: Brevard County Natural Resources

Project Type: Vegetation Harvesting

Sub Lagoon: North Indian River Lagoon

Location: 28.128238, -80.589799

Project Description: This project would consist of harvesting a 2.75 acre canal just south of Sand Dollar Rd.

Education and Outreach: NULL

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 222

Total Phosphorus Reduction (lbs/year): 21

Costs

Total Project Cost: \$54,000

Estimated Cost per Pound Total Nitrogen Removed: \$243

Estimated Cost per Pound Total Phosphorus Removed: \$2,571

Eligible Tax Funding Cost Share: \$24,420

Project Funding

Is Local Match in Adopted Budget: True

Dollar Amount of Local Cost Share: NULL

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: Reduces herbicide use, improves drainage, reduces mosquito breeding habitat, prevents muck accumulation and associated biological oxygen demand.

Notes: 13,500 pounds of wet weight plant material removed from 2.75 acre canal

Save Our Indian River Lagoon Funding Application Short Form: **Basin 958**
Pioneer Road Vegetation Harvesting

Project Details

Entity: Brevard County Natural Resources

Project Type: Vegetation Harvesting

Sub Lagoon: Banana River Lagoon

Location: 28d23'56" / 80d41'57"

Project Description: Ditch Skimmer directing vegetation to side chamber for collection and drying before extraction.

Education and Outreach: NA

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 363

Total Phosphorus Reduction (lbs/year): 47

Costs

Total Project Cost: \$186,000

Estimated Cost per Pound Total Nitrogen Removed: \$512

Estimated Cost per Pound Total Phosphorus Removed: \$3,957

Eligible Tax Funding Cost Share: \$39,930

Project Funding

Is Local Match in Adopted Budget: True

Dollar Amount of Local Cost Share: NULL

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: Reduces herbicide use, improves drainage, reduces mosquito breeding habitat, prevents muck accumulation and associated biological oxygen demand.

Notes: 30,132 pounds of wet weight plant material removed

Save Our Indian River Lagoon Funding Application Short Form: **Cocoa**
Beach Golf Course Stormwater Ponds Aquatic Vegetation Harvesting

Project Details

Entity: City of Cocoa Beach

Project Type: Vegetation Harvesting

Sub Lagoon: Banana River Lagoon

Location: 5000 Tom Warriner Blvd, Cocoa Beach, FL 32931

Project Description: This project will remove aquatic vegetation from 19 stormwater ponds at the Cocoa Beach Country Club. Aquatic vegetation present includes cattails, pickerelweed, hydrilla, pondweed and other submerged vegetation. Estimated nutrient removal efficiencies were estimated through scientific literature review.

Education and Outreach: The City will share project updates and educational materials relating to the benefits of vegetation harvesting for nutrient removal on social media and through city newsletters. Number of post interactions (likes, shares, etc.) and number of newsletters opened will be documented to track engagement. This project site is open to the public, so sign will be placed during harvesting to further educate the public.

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 393 lbs/year X 5 years = 1,965 lbs

Total Phosphorus Reduction (lbs/year): 27 lbs/year X 5 years = 135 lbs

Costs

Total Project Cost: \$238,158

Estimated Cost per Pound Total Nitrogen Removed: \$121

Estimated Cost per Pound Total Phosphorus Removed: \$1,470

Eligible Tax Funding Cost Share: \$216,150

Project Funding

Is Local Match in Adopted Budget: False

Dollar Amount of Local Cost Share: NULL

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: Reduces herbicide use, improves drainage, reduces mosquito breeding habitat, prevents muck accumulation and associated biological oxygen demand.

Notes: 168,268 pounds of wet weight plant material removed from 19 ponds totaling 28 acres over 5 years

Save Our Indian River Lagoon Funding Application Short Form: **Titusville Causeway Multi-Trophic Restoration and Living Shoreline Resiliency Action Project**

Project Details

Entity: Brevard County Natural Resources

Project Type: Living Shorelines

Sub Lagoon: North Indian River Lagoon

Location: 28.6259167, -80.7902556

Project Description: Large portions of the sandy beach adjacent to the Titusville Max-Brewer Causeway have been lost from major storm events and wind driven wave erosion. Native vegetation will be planted to restore the ecological functions that a stabilized, vegetated shoreline provides. The project will increase the resiliency conditions for water quality in the Indian River Lagoon by reducing nutrient loading and sediment suspension. Offshore Wave Attenuating Devices (W.A.D.s) will be installed for additional shoreline protection. Grant funding has been secured from the Brevard County Tourism Development Council to complete final design and permitting but does not include funds for the planted shoreline. A proposal was also submitted, but not yet awarded, through the Florida Department of Environmental Protection Resilient Coastlines Program to fund the construction of the W.A.D.s, shoreline grading, and multi-trophic restoration including native shoreline vegetation.

Education and Outreach: N/A

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 131

Total Phosphorus Reduction (lbs/year): 45

Costs

Total Project Cost: \$163,930

Estimated Cost per Pound Total Nitrogen Removed: \$1,251

Estimated Cost per Pound Total Phosphorus Removed: \$3,643

Eligible Tax Funding Cost Share: \$31,440

Project Funding

Is Local Match in Adopted Budget: False

Dollar Amount of Local Cost Share: \$250,000

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: The Titusville Causeway Shoreline Stabilization project will provide significant impact to the local economy and generate a resilient shoreline to better serve the local community. Protection of the Causeway is an investment in the ecotourism value to the surrounding community, provides flood protection to SR406, and maintains critical habitat for marine species including spawning horseshoe crabs.

Notes: 1,950 feet of living shoreline planted

Save Our Indian River Lagoon Funding Application Short Form: **Johnson**
Jr High Organic Nitrogen Denitrification Media Chamber modification

Project Details

Entity: Brevard County Natural Resources

Project Type: Stormwater Projects

Sub Lagoon: Central Indian River Lagoon

Location: 28.140, -80.651

Project Description: Denitrification media chamber modification to enhance removal of the organic nitrogen components of TN utilizing inorganic media (pea gravel) at the location of flow with the highest dissolved oxygen.

Education and Outreach: NULL

Estimated Water Quality Benefits

Total Nitrogen Reduction (lbs/year): 206

Save Our Indian River Lagoon Funding Application Short Form: **Sand Point Park Baffle Box**

Project Details

Entity: City of Titusville

Project Type: Stormwater Projects

Sub Lagoon: North Indian River Lagoon

Location: 28°37'02.59"N; 80°48'14.47"W / 101 N. Washington Ave, Titusville, FL 32796 32

Project Description: This project will include the installation of a second generation baffle box with Biosorption Activated Media at Sand Point Park in Titusville. The box will be installed following existing detention ponds, prior to entering the Lagoon, creating a treatment train. The City would also like to utilize a clear cover over the baffle box for educational purposes since this is a highly visible area in a public park, but this will be dependent on the final design to determine the feasibility of using that lid type.

Education and Outreach: Educational signage will be installed at the park near the baffle box. The City would also like to utilize a clear cover over the baffle box for educational purposes since this is a highly visible area in a public park, but this will be dependent on the final design to determine the feasibility of using that lid type.

Save Our Indian River Lagoon Funding Application Short Form: **City of Rockledge Flow Equalization Basin Project**

Project Details

Entity: City of Rockledge

Project Type: WWTF Upgrades for Reclaimed Water

Sub Lagoon: North Indian River Lagoon

Location: Latitude: 28.194473 Longitude: -80.432142 1700 Jack Oates Blvd, Rockledge, FL 32955

Project Description: This project consists of the addition of a new 1.4 million gallon influent equalization basin, associated pump station, and supporting facilities including a new electrical building and generator with fuel storage tank. This project also includes the addition of new Variable Frequency Drives to the Waste Activated Sludge (WAS) pumps, improvements at the two existing aerobic digesters (including replacing the existing blowers with new blowers, mixers, diffusers, telescoping valves), new belt filter press feed pump station, and associated yard piping, site civil, architectural, structural, HVAC, and electrical improvements.

This application (including the design, permitting, and construction costs provided) is intended towards the reduction in total nitrogen levels associated with the addition of the new flow equalization basin (EQB) only. The EQB will allow the City to feed the secondary treatment process at a controlled flow rate, provide more consistent loading to the downstream unit processes, and reduce Total Nitrogen levels by 50-85% in the reuse water. The EQB has been sized to equalize influent flows (at appropriate peaking factors) at a projected future wastewater annual average daily flow of 3.5 million gallons per day (MGD).

Dollar Amount Secured Grant(s):

Additional Information

Other Indian River Lagoon Benefits: The primary benefit of this project is improvement of effluent water quality by reducing ammonia nitrogen levels by 50-85%. A secondary benefit derived from the addition of a new flow equalization basin is the protection of natural systems, particularly the Indian River Lagoon. Reclaimed water used for irrigation purposes can make its way to natural systems through stormwater runoff where rainwater collects contaminants it comes in contact with on the ground surface, including nutrients. The addition of a new equalization basin will reduce the amount of ammonia nitrogen that may reach the Indian River Lagoon through stormwater runoff and, therefore, help reduce the amount of nutrients that have the potential to cause algae blooms in the area.

Notes: Reducing reclaimed water concentration of Total Nitrogen from 7.94 to 3.23 mg/l

Save Our Indian River Lagoon Funding Application Short Form: **Central IRL Oyster Project 4**

Project Details

Entity: Brevard Zoo

Project Type: Oyster Reef

Sub Lagoon: Central Indian River Lagoon

Location: The following are the proposed sites for this project. If for any reason we cannot move forward with one or more of these sites, substitution sites will be selected. Proposed sites: 1710 Pine Street, Melbourne Beach FL 32951; 330 Allan Ln, Melbourne Beach, FL 32951; 4210 S Hwy A1A, Melbourne Beach, FL 32951; 4230 Hwy A1A, Melbourne Beach, FL 32951; 7870 Casuarina Dr., Melbourne Beach, FL 32951; 8070 South Highway A1A, Melbourne Beach, FL 32951; 1531 Anglers Dr NE, Palm Bay, FL 32905; 1539 Angler Dr. Palm Bay, FL 32905; 2630 Rocky Point Rd., Malabar, FL 32950; 8845 US Highway 1, Micco, FL 32976.

Project Description: Brevard Zoo intends to construct 8,700 square feet of oyster projects in the Central Basin of the IRL. The design will be site specific and will be approved by the County before construction begins. We will consult with the County to determine whether or not live oysters need to be added to each specific location.

Education and Outreach: Brevard Zoo regularly engages the community in restoration efforts and education. We attend community events, hold presentations in schools, host volunteer opportunities and bring people into the Zoo to learn about the state of the lagoon and current conservation efforts, including oyster projects. We are not asking for any additional funding to continue this effort.

Save Our Indian River Lagoon
Citizen Oversight Committee
November 19, 2021

Agenda Item:

VIII. a. New Business

Title:

Project Funding Recommendations to include in the recommended 2022 Plan Update

Requested Action:

Motion to recommend modification of the *Save Our Indian River Lagoon Project Plan* to include:

- all the projects in the 2022 Project Funding Requests List with the exception of Project(s) Numbered _____[list project numbers to be excluded].

The Citizen's Oversight Committee may consider adding the following direction:

- Project(s) Numbered _____[list project numbers to be returned], are returned to staff for further review and Committee reconsideration at a later date.

Summary Explanation and Background:

Each year, new project ideas and funding requests are accepted for consideration by the Citizen Oversight Committee to be recommended for funding and inclusion in the next annual update of the Save Our Indian River Lagoon Project Plan.

The Committee's recommendations are presented to the Board of County Commissioners for their inclusion, modification and inclusion, or non-inclusion in the next annual plan update. Per the enabling ordinance for the surtax, the Board shall not act on the Committee's recommendations any sooner than 15 days after posting of the draft plan update on the County's Save Our Indian River Lagoon website.

Upon County Commission approval, a project or projects that deliver comparable nutrient removal benefits may be added to the listed Save Our Indian River Lagoon Project Plan or substituted for funding allocated to other projects in the same sub-lagoon. Unless otherwise agreed to by the County Commission, if a substituted project costs more than the project previously included in the Plan, the requesting partner must provide the balance of costs.

Potential recommendations include 30 projects requests from the community for consideration in the 2022 Plan Update. These projects are potentially eligible for up to \$16,675,240 of new or increased Save Our Indian River Lagoon surtax funding.

Title:

2022 Meeting Calendar

Requested Action:

Motion to recommend adoption of the attached meeting schedule for 2022.

Summary Explanation and Background:

Since inception in 2016, the Citizen Oversight Committee has met monthly. For the last several years, the Committee has followed the lead of the County Commission and not met during the month of June. Meetings may be cancelled if not needed or pose significant conflicts, however selecting a full year schedule allows for securing meeting rooms and space on the calendar of all participants. A proposed schedule is attached.

SAVE OUR INDIAN RIVER LAGOON CITIZEN OVERSIGHT COMMITTEE 2022 MEETING SCHEDULE
