

HOUSING AND HUMAN SERVICES DEPARTMENT SUMMARY

MISSION STATEMENT:

To Serve, Empower, and Enhance Brevard

PROGRAMS AND SERVICES:

ACCOMPLISHMENTS, INITIATIVES, TRENDS AND ISSUES AND SERVICE LEVEL IMPACTS:

Community Resources:

- Coordinates and effectuates County and Department grant support functions such as Community Development Block Grant Neighborhood Strategy Area planning, Brevard Commission on Aging, Together in Partnership, and the Community Action Board
- Provides eligibility determinations and coordinates placement of liens and mortgages for all housing programs administered by the department
- Oversees request for proposal processes for housing projects and the Community Block Development Block Grant program
- Provides direct assistance to low-income families to meet their needs through the Community Action Agency (Low Income Home Energy Assistance, Family Self-Sufficiency, and Emergency Services)
- Responsible for satisfying all planning and reporting requirements from grant funding sources

Accomplishments:

- 80% of department contracts received comprehensive on-site or desk monitoring in accordance with the Housing and Human Services Risk Assessment Tool
- Approximately 11,310 Brevard residents have been impacted through Community Development Block Grant projects or public services activities
- The Community Action Agency served 4,807 individuals and families with approximately \$2 million in Federal, State, and local funds. 5,830 individuals and families sought assistance through the Community Action Agency's programs

Initiatives:

- Complete the transition of the Community Action Agency to electronic record keeping
- Continue to seek avenues to expand (digital) community outreach and marketing initiatives to increase awareness of and accessibility to services
- Address ongoing issues relating to impacts upon low income communities relating to coronavirus (COVID-19)

Trends and Issues:

- From March 12, 2020 through April 21, 2020 our local food banks have seen a 49% increase in demand over the same time period from last year. Specifically, this was an increase of 551,895 pounds of food or 459,913 more meals
- During this same time period 211 Brevard experienced a 516.81% (119 to 734) increase in calls about feeding assistance and a 482.1% (78 to 454) increase in calls regarding food pantries

Service Level Impacts:

The majority of funds in Community Resources are from Federal and State (pass through) grants. While these grant programs enjoy bipartisan support, the President's proposed FY 20-21 budget eliminates or reduces most of them. Reductions in funding will result in fewer households being served and ultimately could force low income workers ("working poor") into homelessness or other negative outcomes.

Housing:

- Coordinates and manages Brevard County's First Time Homebuyer Program, Repair/Rehabilitation/Reconstruction Program, Neighborhood Stabilization Program, and Weatherization Assistance Program
- These programs provide direct services to income eligible individuals and families through state and federal funds
- Provides Request for Proposal processes which addresses locally identified affordable housing issues (for example: special needs populations, homelessness, workforce housing, etc.)

Accomplishments:

- 66 residents received assistance through the First Time Homebuyer Program (counseling, down payment, closing costs), Weatherization, or Rehabilitation, Repair, Reconstruction programs and approximately 200 remain on our waiting lists
- The Construction Team has worked to ensure housing projects (85%) progress in a timely manner by completing scope development and processing contractor payments within department approved time frames. Additionally, 95% of change order processing and Weatherization Assistance Program production goals have been met

Initiatives:

- Complete revisions of Department policies to address increases in construction costs and a rebounding housing market
- Continue to maximize leveraging of funds to enhance programs and services for residents and communities within Brevard County
- Explore additional funding and partnership opportunities (public and private) to enhance affordable housing within the County

Trends and Issues:

- Brevard County has approximately 55,100 renting households of which 18,800 will have at least one renter impacted by COVID-19¹. There were already 9,200 rent burdened (paying more than 30% of income towards rent) and this pandemic will create 9,600 more vulnerable households
- The department continues to focus its limited housing resources on projects designed to assist with maintaining (Rehabilitation, Repair, and Reconstruction) and creating new (Purchase Assistance) affordable housing

¹ Turner Center analysis of 2018 American Community Survey Public Use Microdata Sample

- The Housing and Human Services Department continues to see an increase in the number of residents seeking assistance and we are unable to meet demand
- Uncertainty regarding funding levels (Federal and State) impacts the department's ability to sustain long range planning for the creation of badly needed affordable housing within Brevard County

Service Level Impacts:

The department's ability to serve clients remains tied to the limited funding received through grant programs. Specifically from our State Housing Initiatives Partnership (SHIP) program, which are generated through documentary stamp taxes and placed in the Sadowski Housing Trust Fund. During the last 10 state budget cycles these funds were swept as a part of the State's budget process and resulted in significant reductions in allocated funding. During the Legislature's most recent budget, the trust funds were full allocated and Brevard was estimated to receive approximately \$3.5 million beginning in July 2020. However, due to the Coronavirus response, these funds are again at risk for elimination/reduction by either a special session or the Governor's veto.

On May 5, 2020, the Board of County Commissioners allocated up to \$4.4 million, of the \$105 million received from the United States Treasury as a result of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), for three programs: (1) Rent and/or Mortgage Relief, (2) Security and Utility Deposits, and (3) Food Stability. It is anticipated that these funds will have a tremendous positive impact upon the residents of Brevard County, but the department is unable to quantify service levels due to the number of unknown variables.

Veterans' Services:

- Nationally accredited as veteran claims representatives by the United States Department of Veteran Affairs, the Florida Department of Veteran Affairs, the American Legion, the Disabled American Veterans, and the Veterans of Foreign Wars
- Provides direct assistance for veterans and families, to assure they receive the full benefits earned by the veteran's military service
- Assists eligible surviving family members in receiving the benefits they are entitled to
- Assists with the completion of required claim forms, verification of forms and supporting documentation, and submission to cognizant state or federal agency

Accomplishments:

- Per data from the United States Department of Veteran Affairs, payments awarded to clients in Brevard exceeded \$343,026,000 during F Y 18 - 19
- 95% of veterans receive same day service and 95% had less than a 10-minute wait
- Veteran Service Officers completed 18,251 contacts with clients during F Y 18 - 19

Initiatives:

- Determine coronavirus compliant process and complete semi-annual certifications for all Veteran Services Officers

- Seek avenues to expand (digitally) community outreach and initiatives to increase awareness of and accessibility to mental health services in order to decrease instances of suicide

Trends and Issues:

- Brevard County continues to have the 7th largest Veteran population in the State of Florida. This population (including family members and surviving spouses) continues to grow and has unique needs
- Brevard County has more than 17,000 veterans with unique situations (e.g., Post-Traumatic Stress Disorder and increasing suicide levels)
- A continuing shift in veteran demographics has resulted in more service connected disabled Veterans and more low-income veterans and survivor's pensions
- Due to the military departments continued focus on transition assistance, more Post-911 era veterans are seeking claims assistance

Service Level Impacts:

It is anticipated that the number of Veterans seeking claims assistance will continue to increase during F Y 20-21. Currently staffing levels are the minimum required to maintain current level of service. Federal changes to the veteran claim system have had positive impact to local veterans.

Miscellaneous Services:

- Administers the following State Mandated services: Medicaid Match, Baker Act Match, Juvenile Justice Match, Health Care Responsibilities Act, Hospitalization of Arrestees, the Child Protection Team, Americans with Disabilities Act, and Indigent Burials
- Provides administration and oversight of the County's Disaster Shelters
- Contract oversight and finance and auditing services for all Federal, State, and local funding sources

Accomplishments:

- Participated in numerous meetings, trainings, and exercises to support the Disaster Shelters in conjunction with the Emergency Management Department and the Department of Health
- Submitted a proposal and participated in multiple conference calls with the Florida Department of Economic Opportunity in regards to the replacement of the Emergency Operations Center

Initiatives:

- Continue to work with the Emergency Management Department to analyze the staffing of shelters based upon changing requirements from Federal, State, and local sources

Trends and Issues:

- A continuing issue for Housing and Human Services, is the monitoring (and corresponding staff) that is required for our projects during their affordability periods (up to 30 years)
- The Federal Government has allocated the Florida Department of Economic Opportunity an additional \$633 million in Community Development Block Grant – Mitigation (C D B G -M I T)

funds. These funds will be sought for the replacement of the Emergency Operation Center, but administration costs associated with any award would be needed. This is of concern since the Florida Department of Economic Opportunity does not appear inclined to allow local agencies to charge administrative costs for the management of local projects.

Service Level Impacts:

If staffing levels are negatively impacted by reductions in Federal, State, or local funding, there is the potential to fall out of compliance with monitoring requirements, which could result in repayment through the General Fund.

Any additional funds for local projects will contain additional restrictions and requirements (for example, Davis Bacon Act). Since it appears that administrative costs will not be allowed, it will require a local contribution to ensure compliance is maintained. The short-term nature of these funds (typically must be expended within 3 years unless the State requests waivers) will also have an impact upon how indirect costs are charged to the department.

HOUSING AND HUMAN SERVICES DEPARTMENT: SUMMARY
